October 12th, 1917.

Dear Sir-

The Council, at its meeting of July 6th, authorized the offer of the following of our publications:-

Babelon's "Les Médailles Historiques du regne de Napoleon le Grand." A magnificent piece of bookmaking, whose original price was twenty dollars. We have been offering it to Libraries for ten dollars. A few copies remain, and while they last, and up to October 25th, they may be had by members only, for six dollars. In conjunction with the Catalogue of the International Exhibition described below, one copy of each will be sent for ten dollars. The new postal rates go into effect early in November - orders received after October 25th will have postage added.

The Catalogue of the International Exhibition of Contemporary Medals is another volume which has reflected great credit on our Society. It is almost the only publication illustrating the work of the modern American and European medallists. There is much valuable biographical data and an illuminating introduction with a bibliography. Copies were presented to artists exhibiting. The price to others was ten dollars. Not more than two copies will be sent (to members only) at six dollars per copy. In conjunction with the Babelon volume, a copy of these two books may be had for ten dollars, but after October 25th postage will be additional.

The Officers of this Society believe it more desirable that these volumes should be in use than that we should hold them in the expectation of receiving the full published price for them. If you feel that you care to take advantage of this offer, will you not let me have your cheque immediately?

Yours very truly,

Sydney P. Noe,
Secretary.
